

## Technical Data Sheet

### **GBglittering silver Paste** (packing is one kg Jerkin with hand)

- **Ready to be used as transparent silver paste & to be colored with pigments** ,
- it needs only proper & complete drying.
- no need to add any additives.
- Depending on the smoothness & type of the fiber for woven & non-woven surfaces to be printed or coated,
- Generally, the thickness of the film is about 100um, the thinner the film thickness, the more visible the background color effect is.

**Note : The surface must be very smooth for better and clearer effect to be used on dark ground .**

\* We confirm that **GB**glittering Silver Paste is free from the following chemicals:  
Free from Polycyclic Aromatic Hydrocarbons (PAH)&Free from Polychlorobiphenyls (PCB)

**Free from Copper, aluminum, Tin & Nickel** خالي ايضا من النحاس والالومنيوم والقصدير والنيكل

& is non-toxic, odorless and tasteless, non-flammable, non-conductive and high chemical resistance.

\*\*It can be used for most of the smooth fiber surfaces, but **we highly recommend to stir well before each use** preliminary lab tests in order to decide the exact amount needed and best drying temperature as well as thinner film thickness.
